

PETRONAS BRAKE FLUID

Premium Quality Brake Fluid DOT 3

PETRONAS BRAKE FLUID DOT 3 is a premium quality glycol-based brake fluid which meets DOT 3 requirements for automotive brake fluid and Motor Vehicle Brake Fluid

PETRONAS BRAKE FLUID DOT 3 is manufactured for use with disc and drum brakes of cars, trucks, buses and motorcycles where a DOT 3 fluid is specified.

Applications

PETRONAS BRAKE FLUID DOT 3 is recommended for use in the brake system of cars, trucks, buses and motorcycles where a DOT 3 is required. Do not mixed with other base brake fluid type or different DOT type

Customer Benefits

- Excellent corrosion protection for metallic and rubber parts of the brake system
- Resists oxidation and corrosion from the high temperatures
- Compatibility with elastomeric system components
- High-Temperature stability

Product Typicals

Characteristics	Typical
Equilibrium Reflux Boiling Point	273
Wet E.R. Boiling Point	149
Viscosity	
@ 40 °C, cSt	1,225
@ 100 °C, cSt	2.4
PH Value	10.2
Density	1.027
