

PRODUCT INFORMATION

VALVOLINE™ SUPREME GREASE EP2

Valvoline™ Supreme Grease EP2 is a premium quality long life grease. It is a NLGI 2 grade Lithium complex grease engineered with special extreme pressure additives. It is designed for maximum performance and protection in the most demanding service for wheel bearings of automotive heavy-duty applications.

Valvoline™ Supreme Grease EP2 offers an excellent thermal, mechanical, oxidation and roll stability which ensures adequate lubrication under heavy load and high temperature conditions. It also offers superior corrosion, wear protection and has good water resistance. It is specially designed for applications which demand reduce re greasing frequency, longer service life, bearing protection and high performance.

Recommended for use in Automotive heavy-duty Wheel bearings that are subjected to high temperature, higher speeds and shock loads, Mining and Off highway applications

SUPREME GREASE EP2 ADVANTAGES

- Improved stability that offers consistency and performance even at higher load and temperature
- Improved resistance which ensures that grease will not leak during storage or while in use
- Higher load bearing capacity for heavy duty and heavy load applications.
- Higher drop point helps to maintain consistency and performance at elevated temperatures.
- Higher service life which reduces re-greasing interval

Typical properties:

Typical Properties characteristics are based on current production. Whilst future will confirm to Valvoline specification, variations in these characteristics may occur.

Typical Characteristics	
NLGI Grade	2
Type of Soap	Lithium Complex
Colour	Olive Green
Worked Penetration (60 Strokes) @ 25°C	265-295
Dropping Point, °C, min	260
Rust Tests	Pass
4 Ball Weld Load, kgf, min	315
4 ball Wear Scar Dia., mm, max	0.5
Corrosion Prevention Properties	Pass

This product is not likely to present any significant health or safety hazards when properly used in recommended application and good standards of personal hygiene are maintained. Reference is made to Safety Data Sheet (SDS) which is available on request via your local technical or sales representative.
